Dear Parent/Guardian,

The City of Racine Public Health Department, in collaboration with school personnel, has determined that your child may have recently come into close contact with someone who tested positive for COVID-19. Due to the potential exposure, you should monitor your child for symptoms related to COVID-19 for 10 days from the receipt of this letter.

Symptoms of COVID-19 include:

- Fever
- Fatigue
- Shortness of breath
- Cough
- Diarrhea
- Loss of taste or smell
- Headache
- Nausea or vomiting
- Body or muscle aches
- Sore throat
- Congestion or runny nose
- Chills or shivering

If your child develops any of the above symptoms of COVID-19, do the following:

- Keep your child home from school and other activities, and notify your child's school.
- Have your child tested; see below for testing information.
- If they have a medical emergency, call 9-1-1.

Additionally, your child should wear a mask when in public or around others from outside your household. You may want to limit your child's contact with people who are immunocompromised or at risk of severe complications from COVID-19. If you have not already done so, consider vaccinating your child against COVID-19.
